SIZING

Measuring your head for helmet fitment is the right place to start, but it is only a guideline. Different shapes of heads might require a slightly smaller or larger helmet in any given model. **Trying on the model you are interested in is always recommended.** A helmet should be as snug as possible, without being so tight that it causes extreme discomfort or headache. It's always best to be fitted by a professional.

MEASURING YOUR SIZE

1

Begin by **measuring the circumference of your head** with a tape measure or a lengthy string that you can line up with a ruler. Start above the ear and circle around completely, resting it in about a half inch above the eyebrows and at the fullest part in back. Measure multiple times to ensure you don't measure too small or large.

2

Compare your measurements with the **size chart above**. If your measurement falls between two sizes, opting for the larger size is recommended.

All our gloves have passed the CE certified EN: 13594 standard “Protective gloves for motorcyclists” defines the precise, replicable framework based on scientific studies of accidentally for the conduct of tests to certify a protective glove for motorcyclists. The 2003 version of standard EN 13594 has been replaced by version EN13594:2015; it no longer refers to “professional motorcyclists” only, but now applies to all two-wheel motorists. The gloves are designed to protect motorcyclists from external elements without excessively hindering the dexterity of the user in operating the controls and the motorcycle switches. In addition, the gloves are designed to ensure the mechanical protection of the hands and wrists in case of an accident.

LINERS AND CHEEK PADS IN THE SAME COLORED COLUMNS AND FOR THE SAME HELMET MODEL ARE INTERCHANGEABLE; IF THE SIZES ARE IN DIFFERENT COLORED COLUMNS, THEY ARE NOT INTERCHANGEABLE DUE TO DIFFERENT SHELL OR EPS SIZING.

* SUBVERTER - CHEEK PAD THICKNESS IS THE SAME FOR SOME INTERCHANGEABLE SIZES. CHEEK PAD FIT IS ADJUSTED BASED ON THE SOFTNESS OF PADDING USED IN CHEEK PAD. SO SIZING CAN BE ADJUSTED THROUGH CHEEK PAD SWAPPING SINCE THE LARGER SIZE WILL BE MORE GIVING.
